Issue contents 1

Proposed Statutes and By-Laws I 3

Review article

**E.P.v. Strandmann, A. Nastos, B. Holewa, S. Senkel, H. Weber, G.U. Ryffel**
Patterning the expression of a tissue-specific transcription factor in embryogenesis: HNF1*a* gene activation during *Xenopus* development 7

**A. Santel, T. Winhauer, N. Blümer, R. Renkawitz-Pohl**
The *Drosophila don juan* (*dj*) gene encodes a novel sperm specific protein component characterized by an unusual domain of a repetitive amino acid motif 19

**H. Hartung, B. Feldman, H. Lovec, F. Coulier, D. Birnbaum, M. Goldfarb**
Murine FGF-12 and FGF-13: expression in embryonic nervous system, connective tissue and heart 31

**K. Marom, E. Shapira, A. Fainsod**
The chicken *caudal* genes establish an anterior-posterior gradient by partially overlapping temporal and spatial patterns of expression 41

**T. Brand, B. Andrée, A. Schneider, A. Buchberger, H.-H. Arnold**
Chicken NKx2-8, a novel homeobox gene expressed during early heart and foregut development 53

**E.D. Mason, S. Williams, G.R. Grotendorst, J.L. Marsh**
Combinatorial signaling by Twisted Gastrulation and Decapentaplegic 61

**T. Schimmang, G. Alvarez-Bolado, L. Minichiello, E. Vazquez, F. Giraldez, R. Klein, J. Represa**
Survival of inner ear sensory neurons in *trk* mutant mice 77

**F.E. Münchberg, T.P. Spieker, T.O. Joos, P. Hausen**
A paired oocyte adhesion assay reveals the homophilic binding properties of the *Xenopus* maternal cadherins, XB/U- and EP-cadherin 87

**C. Rommel, G. Radziwill, K. Moelling, E. Hafen**
Negative regulation of Raf activity by binding of 14-3-3 to the amino terminus of Raf in vivo 95

**C. Leclerc, C. Daguzan, M.-T. Nicolas, C. Chabret, A.-M. Duprat, M. Moreau**
L-type calcium channel activation controls the in vivo transduction of the neuralizing signal in the amphibian embryos 105

**J.C. Grindley, L.K. Hargett, R.E. Hill, A. Ross, B.L.M. Hogan**
Disruption of PAX6 function in mice homozygous for the *Pax6*$^{Sey\text{-}1Neu}$ mutation produces abnormalities in the early development and regionalization of the diencephalon 111

**K. Ohta, H. Iwamasa, U. Drescher, H. Terasaki, H. Tanaka**
The inhibitory effect on neurite outgrowth of motoneurons exerted by the ligands ELF-1 and RAGS 127
